Message

Over the last 30 years, Mercer County has lost %30 of its population. For the majority of that time, there were not enough jobs available in Mercer County. Now, everyday there is anywhere between 1200-1500 jobs available here, the problem is finding people to work them. In the last five years, I have watched my fellow high school and college graduates take their degrees and leave, many of them believing that there are no opportunities for them here. It is time to change that narrative.
